

To FCC:

5-28-04

I have found XM Satellite Radio to be the perfect alternative to commercial laden "regular" broadcasting and happily pay \$10.00 per month for its variety and quality. I also contribute to Public Radio to listen to NPR, as I find commercial radio to be a redundant wasteland of playlists and obnoxious commercials.

Please reject the NAB's petition 04-160 and support XM Satellite Radio's excellent service.

Thank you,
